Sri Yukteswar (1855- 1936)

was the Guru of Paramahansa Yogananda. He was an enlightened Master and a highly renowned and respected astrologer. Through its deep spiritual vision, and in accordance with the laws of evolution, he re-established the fundamental rules that exist between Heaven and Earth, between the cosmos and the human body, the “*Brahmanda Purusha*”.

« Sri Yukteswarji used to say that everyone should learn astrology in order to complete his education. He considered that even a little bit of that cosmic knowledge would highlight the path of the sadhaka. »
